Description:

Development of E-Learning Tool for DSP & its Amalgamation with Traditional Teaching Approach – Impact Analysis on Student Learning

With the growing advances in the technology it is essential for a facilitator to incorporate new teaching learning techniques for effective presentation and learning of the course. The paper presents an approach of teaching a complex subject like Digital Signal Processing (DSP) by incorporating a planned amalgamation of E-learning tool in the regular teaching. The E-Learning tool presented here is an excellent combination of all multimedia techniques. The impact analysis of introducing the new teaching learning technique on student learning and on the course attainment is also included.

Presenter:

Dr. L S Admuthe, Mrs D Y Loni
Department of Electronics, D.K.T.E's Textile and Engineering Institute,
Ichalkaranji.
