UNDER

National Service Scheme

Clean India, Green India (Swacchh bharat abhiyan)

On

28th March, 2016

Venue:

Pandya bridge,
vadodara

As stated above that cleanliness is compared with the Godliness, it is now becoming one of the most important aspects of a human being. It improves and increases the life of the human being. So it is very much necessary to keep the environment and the city clean and hygienic. It is the fundamental responsibility of each citizen of the country to keep surroundings neat and clean. Swine flu is widely spreading in the nation just because of the germs caused due to dirt. People are very much involved in their own work that they don't take such issues seriously and later on it causes problem for them, so they all should be cautious about the environment.

National Service Scheme (NSS) is an Indian government-sponsored public service program conducted by the department of Youth Affairs and Sports of the Government of India. It is popularly known as NSS. The main aim of the NSS is developing student's personality through community service, NSS is a voluntary association of young people in Colleges, Universities and at +2 level working for a campus-community linkage. NSS volunteers work to ensure that everyone who is needy gets help to enhance their standard of living and lead a life of dignity. Apart from this they also have other programs such as blood donation camp and traffic control. NSS resembles the Bharat Scouts and Guides, National Cadet Corps (NCC) and other programmes developed for national welfare.

Students & faculty members of Parul Polytechnic Institute are cleaning roads & footpaths near Pandya bridge, Vadodara

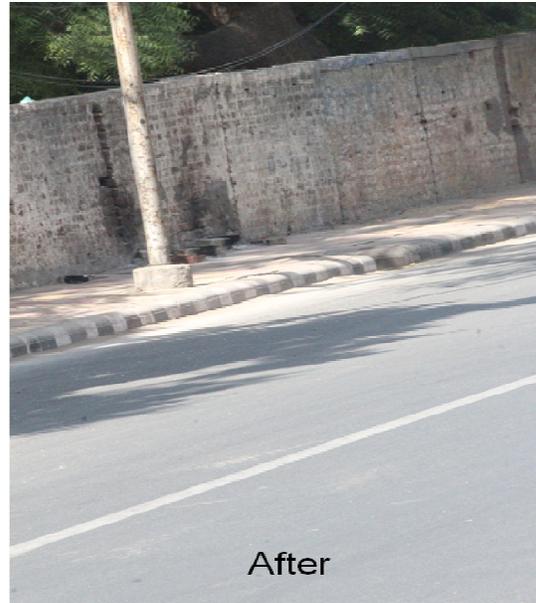

Our college went to the Vadodara city, near the Pandya bridge we cleaned the entire road. A team of nearly 50 students with 3 faculties were involved in the activity.

People on the streets and also the people which were going to their offices were observing us and we were spreading awareness amongst the people through interview.

Venue:

'Limda shresth prathmik shala',
Limda village,
Ta. Waghodia, vadodara

***EDUCATION, it is now becoming one of the most important aspects
of a human being.***

It improves and increases the proper sense of a balanced living, while makes one to choice among necessity and luxury. For a proper organised well society, everyone living in that society must be educated. Education enables one to speak among others, or makes one different to put him/herself uniquely in a society. Education should be available to every human being.

If one is educated then he/she must educate those who are not able to get education by themselves financially, or by any other reasons. If that goes on, one day that society will educate another society, than a state, then a country, then everyone could have proper education that helps them living. There are many ORGANIZATIONS that helps the rural people by giving them free education. While one of the govt. scheme 'sarva siksha abhyan' under NSS is helping by reaching towards local rural, outskirt's schools and provide education.

Our college parul polytechnic institute has organised in one of this activity with 15 students and 4 faculties. And went to 'limda shresth prathmik shala' i.e. limda primary school, and had taught many subjects like maths, science, s.s., english. Our team taught them the importance of education. They were very excited about this experience and were very joyful during the activity.
