## A Report on “Women’s Day” Celebration On 8<sup>th</sup> March, 2016

International Women's Day (March 8) is a global day celebrating the social, economic, cultural and political achievements of women. The day also marks a call to action for accelerating gender parity.

International Women's Day (IWD) has been observed since in the early 1900's - a time of great expansion and turbulence in the industrialized world that saw booming population growth and the rise of radical ideologies. International Women's Day is a collective day of global celebration and a call for gender parity. No one government, NGO, charity, corporation, academic institution, women's network or media hub is solely responsible for International Women's Day. Many organizations declare an annual IWD theme that supports their specific agenda or cause, and some of these are adopted more widely with relevance than others.

Parul Polytechnic Institute organized a motivational speech on 8<sup>th</sup> March,2016 on “Women’s Day” on the topic of “Woman Empowerment” for which we have invited **Ms. Khyati Thakkar** who is currently perusing her **M.sc in Chemistry from M.S.**

**University and along with this she is handling a large chain of business of a cosmetic product company “Oriflame pvt. Ltd.”.**

The session was conducted with a view to provide awareness about Entrepreneurship so that our student can't just go for the job but they can create jobs too. The main reason for this workshop is to motivate our girl students to go for the same.

In this workshop the major focus is to proliferate our students to go for what they are capable of our expert Ms. Khyati Thakkar motivated our students with the best of her efforts and the session was very enjoying and prodigious too. She also informed that one can able to work along with their studies and by doing so one can able to polish his/her skills for the future use. She also said that Don't raise your voice raise your words. Make your name as immortal as Sunita Williams. Women's should help other girls for their education; we should financially support them for that. Girls can compete with boys in any field.
