## **GUJARAT TECHNOLOGICAL UNIVERSITY**

**BE - SEMESTER-VIII EXAMINATION - SUMMER 2016** 

Date:07/05/2016

Tiı	me:10 truction 1. 2.	Name:Data Communication and Networking (Department Elective - II) 0:30 AM to 01:00 PM Total Marks: ' ons: Attempt all questions. Make suitable assumptions wherever necessary. Figures to the right indicate full marks.	70
Q.1	(a)	1. Explain how TCP/IP and OSI Reference Model are different with each other.	07
	(b)	2. Explain various network topologies with their advantages and disadvantages. Imagine the length of a 10Base-5 cable is 2500 meters. If the speed of propagation in a thick co-axial cable is 60% of the speed of light, how long does it take for a bit to travel from the beginning to the end of the cable? Ignore any propagation delay in the equipment. (Speed of light = $3 \times 10^8$ meters / sec)	07
Q.2	(a)	Give the Classification of network in detail according to the area covered. Also explain each classification of network in detail.	07
	<b>(b)</b>	<ol> <li>What does 'negotiation' mean when discussing networking protocols? Give an example.</li> <li>Give the main difference between TCP and UDP.</li> </ol>	07
		OR	
	<b>(b)</b>	Give comparison among circuit switching, packet switching and message switching.	07
Q.3	(a)	The following character encoding is used in data link protocol: A: 01000111; B: 11100011; FLAG: 01111110; ESC: 11100000 Show the it sequence transmitted (in binary) for four character frame: A B ESC FLAG when each of the following framing methods are used:  1. Flag bytes with byte stuffing. 2. Starting and ending flag bytes, with bit stuffing.	07
	<b>(b)</b>	What is piggybacking? Explain its advantage using an example.  OR	07
Q.3	(a)	Explain sliding window protocol of size 1, with a 3- bit sequence at sender and receiver side.	07
	<b>(b)</b>	What is the major difference between error detecting and error correcting codes? Show how Hamming code is used to correct burst errors.	07
Q.4	(a) (b)	Explain the channel allocation problem and its solution in detail.  Write short note on Bluetooth.	07 07
Q.4	(a)	<b>OR</b> Explain hidden station problem and exposed station problem in wireless LAN.	07
<b>V.</b> -	( <b>a</b> ) ( <b>b</b> )	Write short note on Fast Ethernet.	07
Q.5	(a)	What is congestion? Write congestion prevention policies for network and transport layers.	07
	<b>(b)</b>	Write techniques to achieve good QOS. Explain leaky bucket algorithm.  OR	07
Q.5	(a) (b)	Write short note on DNS. Discuss the social issues connected with network security.	07 07
