- (a) Law of Agency
- (b) Law of Contract

## OR

- Q.5 (a) What is the basic premise of ABC analysis? Explain the step-by-step procedure of ABC analysis.
  - (b) The following data are available on consumption pattern of certain materials in an organization:

|       | No. of | Monthly consumption | Price /    |
|-------|--------|---------------------|------------|
| Group | Items  | (per unit)          | item (Rs.) |
| I     | 40     | 3000                | 90         |
| II    | 30     | 170                 | 500        |
| III   | 20     | 270                 | 100        |
| IV    | 60     | 340                 | 50         |
| V     | 100    | 1700                | 5          |
| VI    | 200    | 1500                | 4          |
| VII   | 250    | 2000                | 2          |
| VIII  | 300    | 2500                | 1          |

Find out the items when

'A' items account for 85% of consumption value

'B' items account for 10% of consumption value

'c' items account for 5% of consumption value
